Improvement Works to Crystal Palace 50m Pool and Diving Pool – Customer Update

While essential maintenance works to the 50m Swimming Pool and Diving Pool at Crystal Palace National Sports Centre are progressing, surveys have revealed further remedial work is needed before these facilities can reopen. This means that unfortunately these facilities will not be able to reopen in spring 2021 as originally planned.

We understand that customers will be disappointed however we are working hard with our partners at the GLA to get these prestigious facilities back in use as soon as possible.

We look forward to welcoming customers back to the activities that can reopen including the gym and 25m swimming pool as soon as Government restrictions are lifted. Please visit www.better.org.uk for up to date information on facility and activity availability.

We thank our customers for their continued support and will provide another update when we have further information available
